Free Entrance

INVITATION

It is with great pleasure that we invite you to our event on the occasion of World Mental Health Day 2022:
"Making Mental Health and Well-being for all a Global Priority"

This year's theme has two equally important messages:

First message: **"Mental Health Promotion"**

As we all know, "Promotion" is even more important than "Prevention" and this is because it is related to Health and not just to Disease.

Second message: **"For all"**.

It is well known that inequalities contribute, often decisively, to the development of psychopathology. The elimination of inequalities is certainly an unrealistic goal, but reducing the gap is not.

Pursuing this goal is not only of humanitarian importance but also contributes to the mental health of the population.

We welcome you to an important event that will take place both in person at the Amarilia Hotel in Vouliagmeni and online.

As you will notice, the programme includes the leaders of the most important international institutions in the field of mental health.

We look forward to our encounter with great anticipation,

Sincerely,

George Christodoulou

President of the Society of Preventive Psychiatry

Sir Leslie Ebdon

President of the European Association of Professors Emeriti

Spyridon Zormpas

President of the Greek Carers Network Epioni

Link to participate: <https://us02web.zoom.us/j/89592782047>
